

Applation - Your Partner for Success

Oracle BI Publisher Solutions

Applation provides complete solutions to implement Oracle BI Publisher. Oracle BI Publisher offers the most efficient scalable reporting

solution available for complex, distributed environments. It provides a central architecture for generating and delivering information to employees, customers, and vendors. BI Publisher reduces the high costs associated with the development, customization and maintenance of business documents; while increasing the efficiency of reports management.

Applation consultants assist clients in migrating E-Business Suite Reports to the Oracle Business Intelligence Publisher Enterprise environment. Our solution includes a full migration of your existing Oracle E-Business Suite reports architecture to BI Publisher templates and the conversion of up to 10 standard Oracle reports to BI Publisher format.

If your needs require delivery of BI Publisher reports in various formats, Applation's BI Publisher Report Bursting solution can help. We will collect and analyze your delivery and bursting needs and create the necessary programs to deliver your reports to their intended audience.
